

Khristy A.
FRANKLIN, ED. D.

District Family Engagement &
Communication Coordinator

Welcome Noxubee County School District

Greeting NCSD Parents & Guardians, and welcome to the 2022-23 school year! My name is Khristy Franklin; I have been an educator in the Noxubee County School District for over fifteen years. I was the Business Fundamental Management Teacher at the career technical center prior to my central office position. My role in the district is to ensure that clear and effective communication amongst all NCSD stakeholders. My goal is to serve our district's stakeholders to strengthen our community and family engagement while meeting the academic needs of our students.

During various times of the day, we will offer several parental and community events. One of NCSD's main focuses this year is ATTENDANCE! We want to encourage each scholar to attend school each day.

Academics and attendance work hand-in-hand, and we want them to increase during this school year. I desire to be purposeful in my contribution to effectively bring the NCSD's mission and vision to life. And it all starts with strong and consistent support from all NCSD stakeholders.
