

LAKISHA STEVENSON, MSN-RN

School District Nurse

Greetings, Noxubee County School District parents and community stakeholders!

My name is Lakisha White Stevenson, and I am your District School Nurse. I began working for the Noxubee County School District in 2011 as the Allied Health/ Health Sciences Instructor, and I later became the District School Nurse in 2018.

My career in healthcare started in 2005, and I have worked at several facilities in the surrounding area, such as Noxubee County Nursing Home, Noxubee General Hospital, Diamond Grove Center, Delta Regional Medical Center, Mississippi Home Care, and West Point Community Living Center.

My educational background includes completing the Licensed Practical Nursing Program at East Mississippi Community College in 2005; I received an Associate of Science in Nursing from Meridian Community College in 2010, I received a Bachelor of Science in Nursing from the University of Alabama in 2017, I received a Master of Science in Nursing from the University of Alabama in 2019. I completed the Family Nurse Practitioner Program at Delta State University in 2022.

My role as the school district nurse is to support student education through activities that promote physical, mental, emotional, and social health care services that maximize the quality of in-class time by reducing the incidence of health-related absenteeism and minimizing health problems that impair learning. My role also includes providing direct health care to students, faculty, and staff, promoting a healthy school environment, and serving as the liaison between school personnel, family, community, and health care providers.

If you have any concerns or questions, please contact me at l Stevenson@ourncsd.org or 662-726-4428.
