

Virtual Imagine the Possibilities CAREER EXPO

ATTN:
9th – 12 Graders
Especially 10th graders

Message from Our Career Coach...

From October 1, 2022, to February 28, 2023, I've been trying to get as many NCHS students as possible to sign up for the Virtual Imagine the Possibilities Career Expo. The site will give teachers, students, and parent access to all career exploration resources and activities. Access can be made via laptops or iPhones.

Students will create a profile, which doesn't take long, and once signed/logged in, they will watch short videos and activities about the various career choices. Watching the 2 -5-minute videos will allow students to learn and collect points. Based on the student's point accumulation will allow students to win Apple products. (MacBook Air, iPad, Air Pods Pro, Beats Studio Buds, or Beats Flex All Day Wireless Earphones).

This week, December 6-10, 2022, the career path spotlight is on Information Technology. The website for this career expo is www.itpcareerexpo.com. This site will allow them to sign up and get started.

Thanks,
Mrs. Gwendolyn Hughes
