SCHOOL DISTRICT**

Noxubee County School District Child find

The Noxubee County School District is participating in an ongoing statewide effort to identify, locate, and evaluate children birth through the age of twenty one (21) residing in the district. This includes children with disabilities who are homeless or wards of the state, parentally placed and attending private schools, regardless of the severity of their disability, and who are in need of special education and related services. Early identification of children in need of special education is essential to adequately prepare them for life long experiences. In addition, this information gathered from contacts with parents and other agencies will be used to help determine present and future program needs as improvement is made toward the goals of providing a free and appropriate public education to all children with disabilities.

The Office of Special Services works with the local Head Start, Department of Human Services, Health and Mental Health Agencies, as well as local education agencies, physicians, and other individuals to identify and locate children out of school and in-school who may be in need of special services. Please contact The Office of Special Services if you know of any children who may have a disability by calling or writing to the following address:

**Sarah Bankhead, Special Education Director
Kimberly Long, Case Manager
